1. A hard surface, all weather road **[#924]** designed for heavy usage runs from Sobrance northwest to Michalovce and south southeast to Uzhhorod, USSR. The road is over two lanes wide and runs over level terrain. The curves on the road are shallow and high speeds can be attained on it. This road is considered to be a first class highway in Czechoslovakia. In some sections the road is asphalt surface and in some concrete surface.
2. A hard surface, all weather road **[#903]** runs from Vys Revistia south southeast to Uzhhorod via Kristy. The same type of hard surface, all weather road **[#903]** runs from Vys Revistic northward to Michalovce. The road has a good solid foundation and the top layer is gravel surfaced with sand. This road is able to absorb heavy usage and is over one lane in width. Villagers and farmers maintain the road and occasionally the state assigns work crews to maintain this road.
3. A number of loose surface, dry weather dirt roads **[#935]** run in the vicinity of Bunkovce, Kristy and Sejkov. In some areas the dirt roads are also classed as cart tracks. Both are over one lane in width and can occasionally bear heavy usage. Both the dirt roads and cart tracks run over level terrain. However, when it rains transportation on the dirt roads and cart tracks is extremely difficult because they become deeply rutted, potholed and uneven. When this occurs the traveler gets off the road and cart tracks and rides on the farm fields.

UŽHOROD. *Užhorod* is the capital of the western part of the Carpathian Uplands. The city is situated on the river Už, which flows into the Tisza. It is a large industrial center, with a population of about 150,000. The city is surrounded by mountains, and the surrounding area is known for its beautiful scenery and rich history. The city is also known for its traditional architecture, particularly the wooden houses and churches. The city is a popular tourist destination, with many visitors coming to see the stunning views of the surrounding mountains and the historic buildings.
